# LYON BRON AIRPORT - LFLY

## A STRATEGIC CHOICE

Lyon's attractiveness is no longer to be seen, the city has been chosen as the "Best European Weekend destination" at the last World Travel Awards.

Lyon is France's second largest city and one of the largest conurbations with Greater Lyon. It has two airports and a high-speed train station less than ten minutes from the city centre.

The facilities at Lyon-Bron are well recognized within the aviation community. The 1,820-metre runway makes it possible for many aircraft to land without weight restrictions.

The aim is to increase the number of exhibitors and to extend the range of aircraft on display, towards both lighter and heavier aircraft.
